1. The Members of the Editorial Board have been queried and authorize the release of the content of this article to the [REDACTED] if your man [REDACTED] will observe the rules long established for the release of Studies material [REDACTED] 25X1A 25X1C

2. The rules: Studies articles approved for release to foreign nationals must be retyped, even if no textual changes are required, in order to eliminate the implication in the printing format that such a publication as the Studies exists. Standard deletions, in addition, include name of author, original pagination, and references in footnotes or text to previous issues of the Studies. The idea is, of course, to take every step to conceal the fact that the text in question was once an article in the Studies.
